

齿轮强力刮削
系列 WSR1 用于更大的模数

GEAR SKIVING
SYSTEM WSR1 FOR LARGER MODULES

系列 WSR

模块化系列WSR扩展了WSR1的尺寸。因此，现在可以实现刀具直径120毫米。WSR系列基于专利的精密接口以实现最大的同轴度。配合硬质合金和内部涂层使系列能够针对各自的应用进行优化设计。内部生产的刀柄保证了系列对工件的精确配合，以避免干涉。

System WSR

The modular system WSR has been extended by the size WSR1. With this, tools with diameter of 120 mm can now be realised. The WSR system is based on a patented precision interface for maximum concentricity. Coordinated carbides and the internal coatings enable the system to be optimally designed for the respective application. The in-house production of the tool shanks guarantees the exact adaptation of the system to the workpiece to avoid collisions.

不同之处： 更多可能

THE DIFFERENCE: MORE POSSIBILITIES

- **硬质合金强力刮削刀具直径可达
120mm**

Carbide skiving tool up to diameter of
120 mm

- **刀柄可根据加工条件调整**

Holder adjustable to machining conditions

- **可切换的冷却系统提高加工可靠性**

Switchable cooling systems for high
process reliability
